0 BEFORE GETTING STARTED

Before to start using SpeedNavi SQ™, please make sure you understand all the notifications as well as information provided below for your own safety. M&SOFT Inc. recommends you to read all the notifications for proper and easy use of the software and to read information to have a better understanding of navigation in use.

0-1 LEGAL NOTIFICATION

IMPORTANT!	LIABILITY The software and documentation are subject to change without notice. M&SOFT Inc. is not liable for the accuracy of the information contained in this manual or for damages resulting from the use of this manual.
IMPORTANT!	TRADEMARKS All brands and trademarks mentioned in this document are possibly registered by third parties and are subject to the current legislation and to the rights of their respective owners without reservation. All mentioned names of products, societies, or brands may be registered trademarks of their respective owners.

0-2 SAFETY NOTIFICATION

CAUTION!	DO NOT operate while driving. Operating the system while driving may result in a dangerous situation.
CAUTION!	DO NOT look at the display unless it is absolutely safe to do so. Loosing attention while driving may cause a dangerous situation.
CAUTION!	FOLLOW TRAFFIC REGULATIONS. Traffic regulations have priority over any instructions given by the system. Real driving environment may differ from the system.

0-3 USEFUL INFORMATION

NOTE!	It is important for you to have latest version of SpeedNavi SQ™ to have a safe and accurate use of the system. You may check related information as well as its schedule regularly from the web. (http://www.speednavi.com)
NOTE!	GPS reception has error range according to the geographical features as well as climates. By this reason, in some cases, the route guidance may result in a minor difference. In such case, you may stop your vehicle in a safe and wide open place to let GPS lock satellite's location properly. When GPS signal is low in general, please visit your local device representative to solve the problem.
NOTE!	In order for you to use TRAFFIC MESSAGE applied to SpeedNavi SQ™, ask your local device supplier for a proper use. In some countries, you are asked to pay for the information use as well as for the data receiver.

0-4	REGISTERING YOUR PRODUCT

Registering product

Input the license key given at www.speednavi.com and your software serial number composed of 16 digits on the enclosed sticker in the CD or the manual.

1 QUICK GUIDE

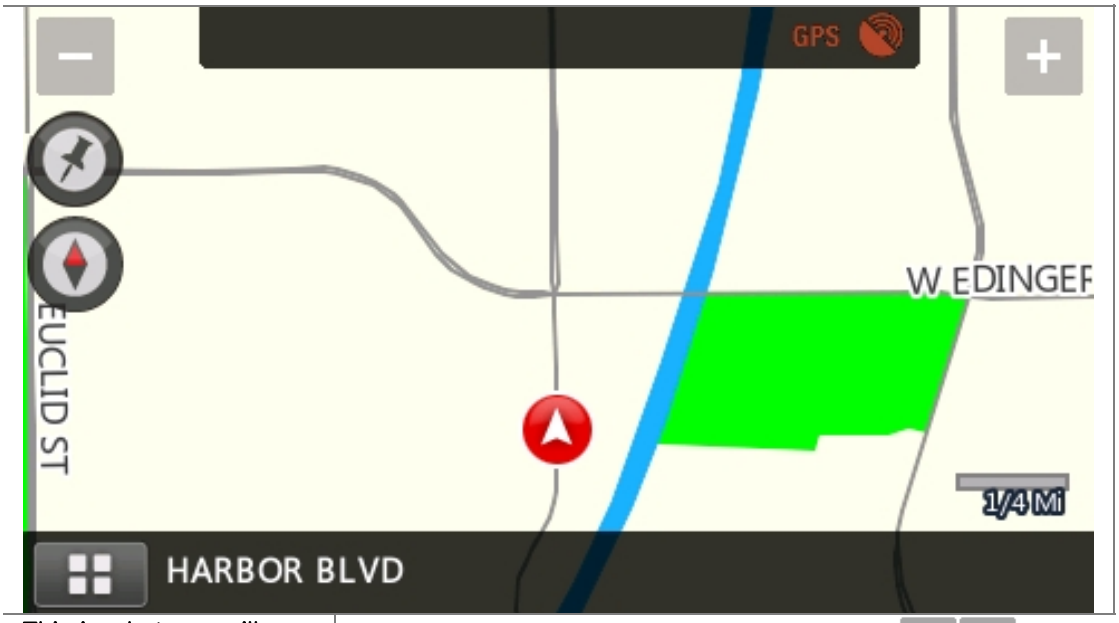
Quick guide gives you an easy and fast way of understanding SpeedNavi SQ™ in general. Please read through the chapter 2 SpeedNavi SQ™ to have a better understanding in use of the software. In this quick guide, information is related to frequently questioned features only.

1-1	UNDERSTANDING SCREEN FEATURES

What you will see when you turn the system on.

When you see this screen, the system is booting to start the SpeedNavi SQ™. Wait and the screen will be changed automatically.

This is the Warning screen . Read conditions and information carefully and tap I Agree I to accept the conditions and information.	
(Searching) Selection of states. You need to select the states when the map program is firstly started. You can also change states when you searching cities in other states.	
This is the main screen you will always use. SpeedNavi SQ™ gives a simple menu structure for an easy use of navigation. You may browse map and set a destination on the map, find a destination by various methods or manage your own settings.	



This is what you will see in Map menu	Zoom level control is always on the top with icons. In a normal screen, you will always see icons on left and icon above. These icons give you more information as well as useful features. At bottom, you will see Menu and a text bar that is displaying your current position in street or regional name.
This is what will appear in the screen while you navigate. The street name on top is where your next turn shall be made. You will be guided in a separated screen when approaching an intersection where you will make turns in advance.	Changing view mode	[North up mode] When using this mode, the top side of your screen will always be the north. (left for west, right for east and bottom for south) [Heading up mode] When using this mode, the top side of your screen will always be the direction of where you are heading to

	[3D in Heading up] When using this mode, the screen will have your Heading up mode in 3D graphic to give you closer look of real driving environment.
Finding my position	While browsing map, sometimes you won't be able to remember your current location. Just tap on icon on the screen if you wish to view or change screen back to your current position. This icon won't be displaying unless you browse the map other than your current position.

1-2	FINDING A DESTINATION
Tap "Destination" You may find a destination using "Map" also. Please refer to detailed "Map" guidance in later sections.	
Tap "Address" You may use other types of finding a destination also. Please refer to detailed "Destination" guidance in later section.	
Please input the name of road you would like to find.	
A list of roads will display on the screen including typed road name. Select the correct road name you wanted to search.	
Select the City which includes the road you have chosen.	
Input the house number.	

Tap “Destination”.	To change the routing options,. Tap “ Route.”	Choose one routing option and follow the route guidance to your destination.	
1-3	USING ADVANCED FEATURES
MAP	You may use “MAP” to browse map, find a destination, via points or find and save a favorite place as your own POI’s (My Point) To use or learn this feature, tap on “MAP” from the main menu.
MY POINT	You may save a place as one of “MY POINT” which is same as creating your own POI’s for a favorite place.

	To use or learn this feature, tap on “DESTINATION” from the main menu and go to page 2/2 and tap on “MY POINT”

2 SPEEDNAVI SQ™

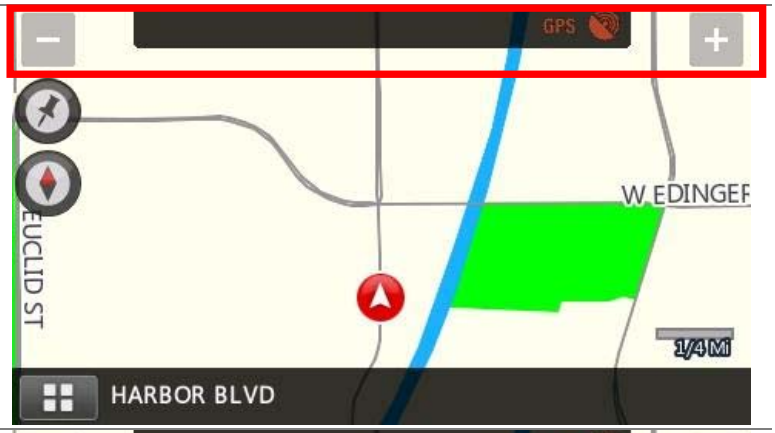
In this chapter, you may find all the necessary information regard to using SpeedNavi SQ™.

2-1	UNDERSTANDING THE SOFTWARE
How is the menu structured?	SpeedNavi SQ™ consists of 3 main menus, [MAP], [DESTINATION] and [SETTING]

Main Menu	Sub Menu
MAP	-
DESTINATION	Address
	Recent
	My Point
	POI Name
	City Center
	Nearby
	Coordinates
	Theme
SETTING	Route
	Display
	Guidance
	Language
	Simulation
	Time Zone
	Unit
	Others
	Tracks
	Reset

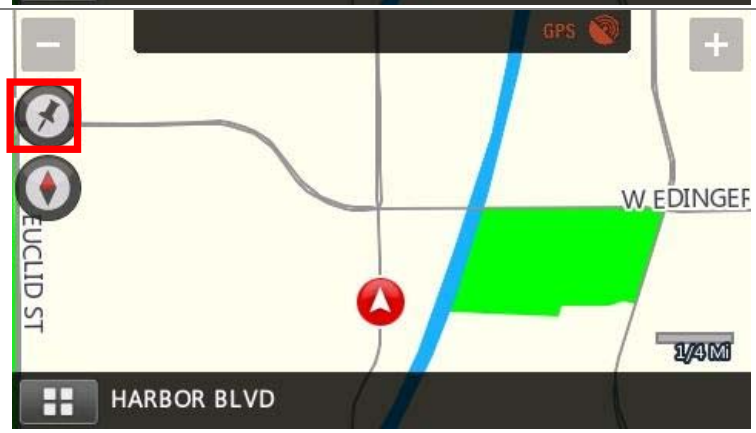
ZOOM CONTROL

You have 15 different zoom levels to choose from. Adjust your zoom level by pressing + − icons.



MY POINT

You can save a place as your own POI by using icon. Tap on the place from the map and tap on icon. You may save this place in a several different categories. You may search this saved place as a destination from your "MY POINT" list for later use.



GPS STATUS

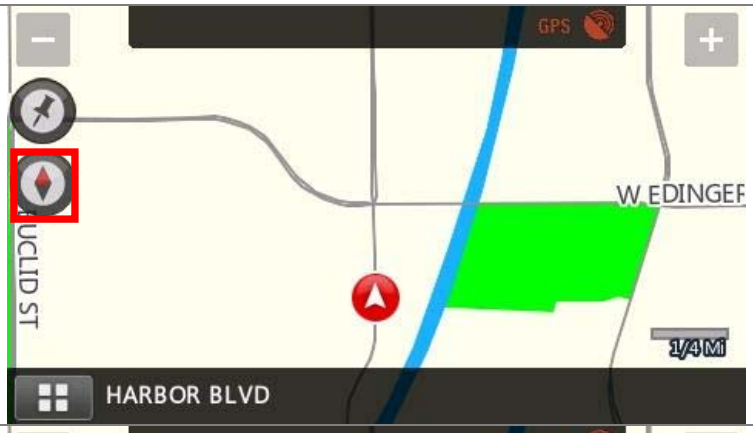
When you have icon on the screen, it means your GPS is NOT working properly. When this happens, make sure your device is in a open area for a while. Please ask your device supplier if it is still not working.

	No GPS
	Unstable GPS
	Normal GPS

VIEW MODE

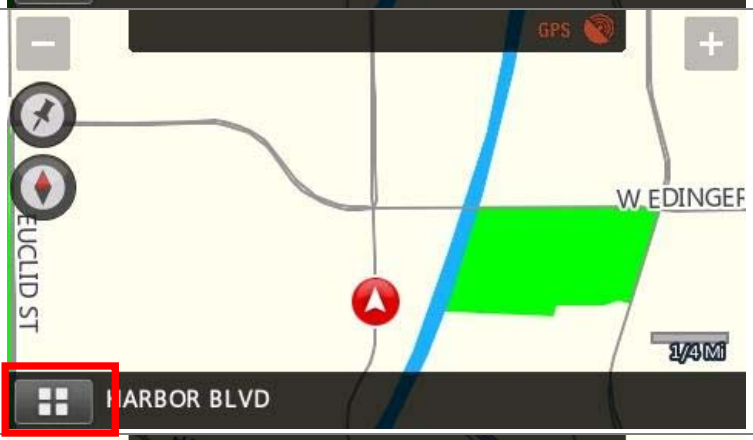
You may change your view mode by tapping on icon.

	North up
	Heading up
	Heading up (3D)



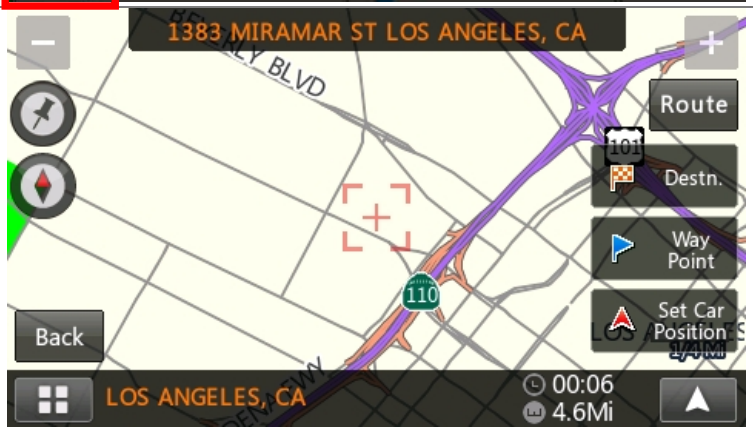
Where will you find all the menus?

Tap the icon and you will find the main menu.



When you wish to move back to your current position?

Tap icon to move back to your current position while you are browsing map. Once you are back on your position, the icon will disappear automatically.

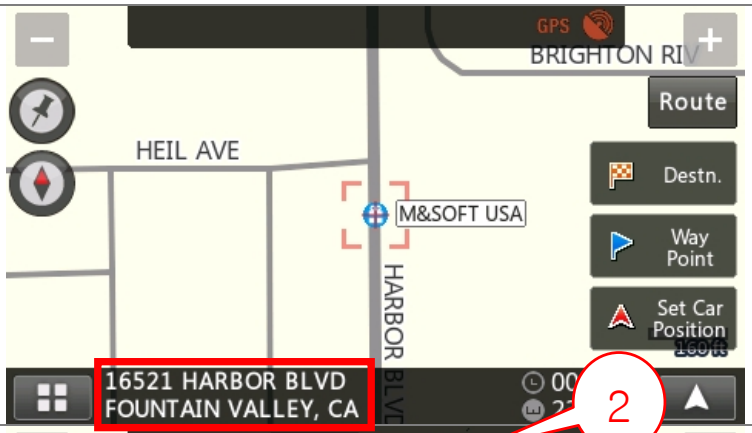


When you wish to know how fast you are driving?

Your speed calculated by GPS is displayed right above of the " ".

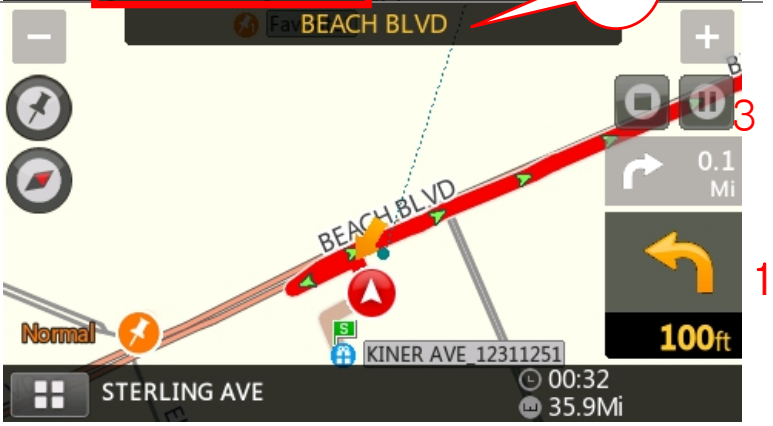
CURRENT POSITION (Street name in Text)

Your current position will be displayed by street name in text at bottom of your screen.



What is the guide information on the screen?

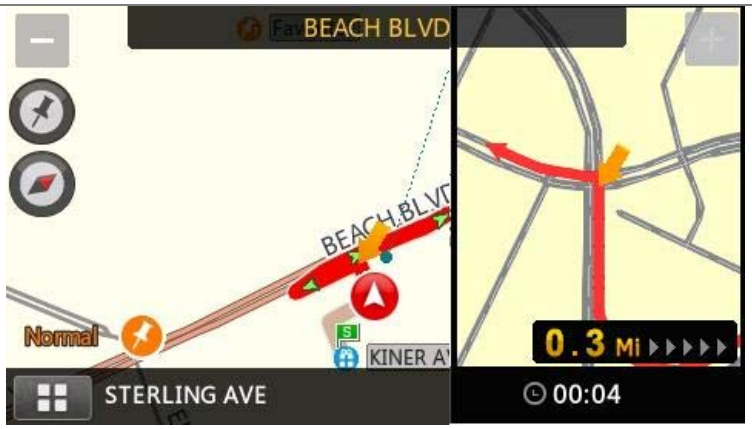
①The first turning information ②the street name you will make turn. ③the second turning information



SPLIT SCREEN VIEW GUIDE

When you are approaching a turning point, the screen will be divided into 2 sections to give you more specific guidance.

① Example of Split screen on the driving normal road.



② Example of Split screen on the driving entrance of highway.

③ Example of Split screen on the driving highway.	④ Example of Split screen on the driving entrance of highway or branch off.	INDICATAORS WHILE DRIVING When you are driving, there are useful indicators on map display.	
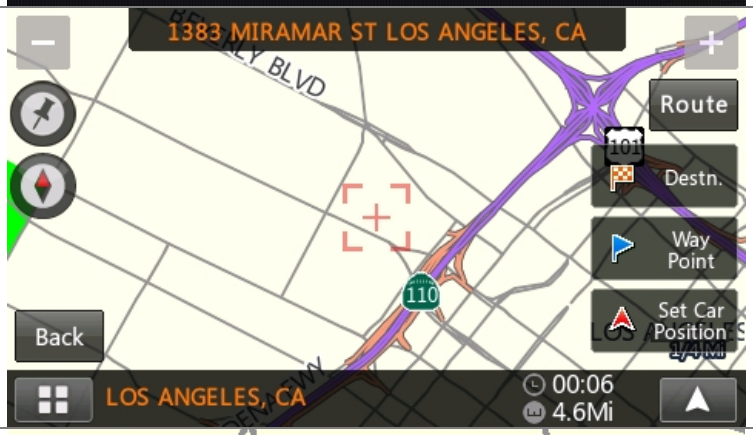
①	Tuning Point
②	Remaining distance to the turning point
③ Tog gle	Remaining distance to the destination
	Time Remaining

2-2	MAP
What does the “MAP” do?	The “MAP” is one of main menu which gives you feature to ▶ Browse map ▶ Find a destination, Way point(or Via point) from the map ▶ Find a destination from the map to save it as “MY POINT”

From the main menu, select

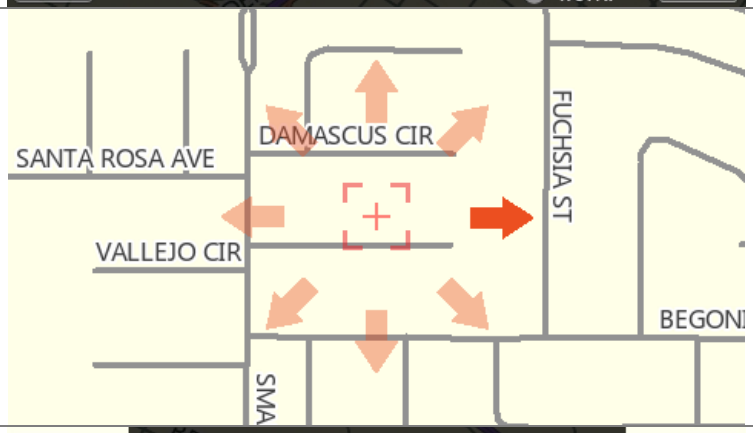
Browsing map (1)

You may browse map by tapping the direction from the screen to move map to a particular place you wish to see



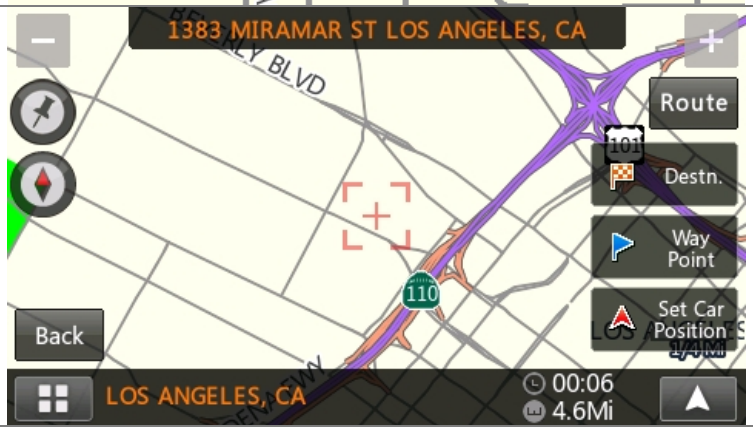
Browsing map (2)

You may move the map by pressing the screen by a few seconds to call out direction arrows to move around the map on the screen.



Searching a destination

Find a place to set as a destination/way point/set car position to find a route



2-3	Destination
What does the "DESTINATION" do?	The "DESTINATION" is one of main menu which gives you the option to find a route to a destination by various different methods such as; ▶ Address ▶ Recent ▶ My Point ▶ POI Name ▶ City Center ▶ Nearby ▶ Coordinates ▶ Theme
How this menu is structured?	

Main Menu	Sub Menu
DESTINATION	Address
	Recent
	My Point
	POI Name
	City Center
	Nearby
	Coordinates
	Theme

2-3	-1. Address
Tap "DESTINATION" Address searches routes to a destination using address.	

Tap “ADDRESS”.	Type a name of Road that you wish to find. At the Traffic Circle

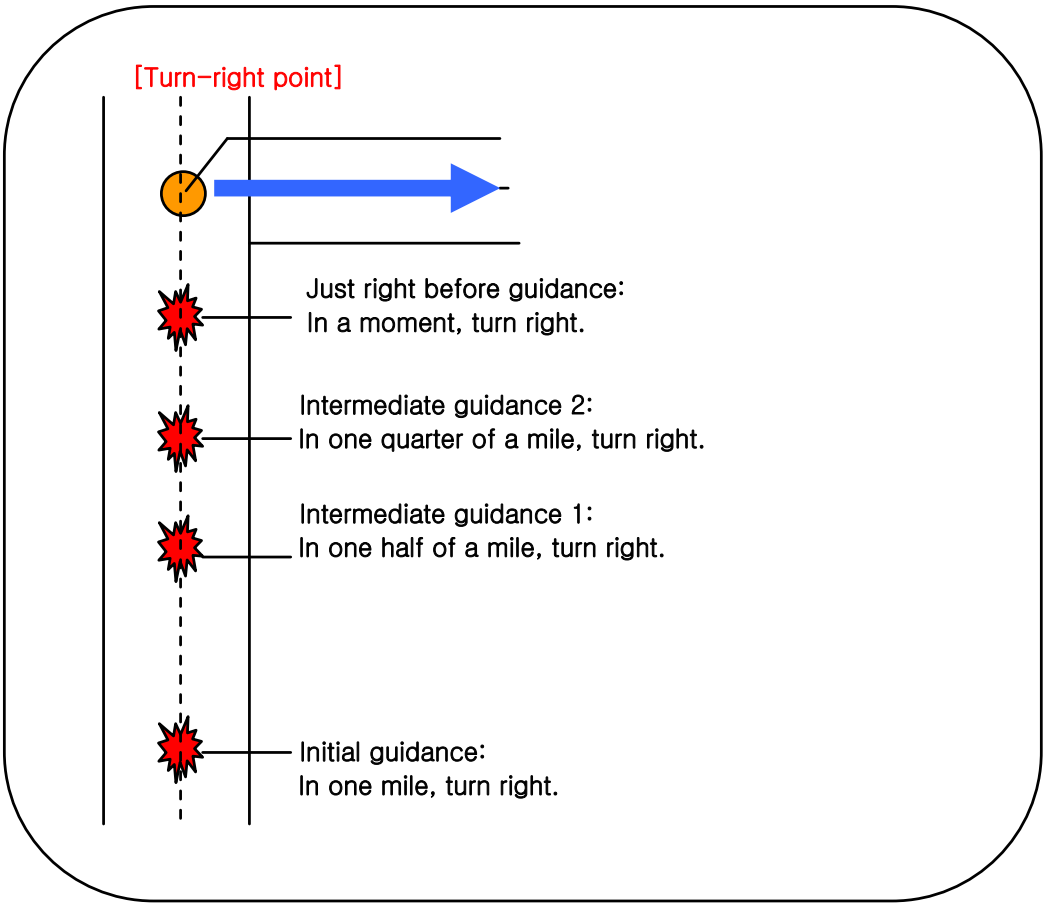
Take the fourth exit
Take the fifth exit
Take the third exit
...
Traffic Circle
Take the second exit
Take the fifteenth exit
Take the first exit



[Turn-right point]
Just right before guidance:
In a moment, turn right.
Intermediate guidance 2:
In one quarter of a mile, turn right.
Intermediate guidance 1:
In one half of a mile, turn right.
Initial guidance:
In one mile, turn right.

※ According to the remaining distance to guidance point, the distance for voice guidance can be changed at initial guidance.

[Voice guidance distance and frequency]

	Highway	General road
Just right before	0.5mi	0.1mi
Intermediate2	1mi	0.25mi
Intermediate1	2mi	0.5mi
Initial guidance	3mi	1.5mi

The guidance distance could be slightly different from the actual remaining distance due to the map or GPS errors.

3 INSTALLATION

In this chapter, you may find all the necessary information regard to installation, re-installation and upgrade of SpeedNavi SQ™.

Follow the instructions as below to install or re-install the SW

3-1	Remove SD/CF/MMC/Mini SD card from the device
3-2	Place the memory card into a card reader and make sure your computer is on and connected to the card reader.
3-3	Put installation CD/DVD provided or decompress the file you downloaded from the website.
3-4	Follow the instruction step by step to install or upgrade

IMPORTANT!	To perform an installation or an upgrade, you need to have the license number to make process and activate your software. Please make sure you have the number in a safe place.
Please note that M&SOFT Inc. has NO LIABILITY over supplying re-issued license number or CD/DVD for installation (including files and etc).	You may also check upgrade availability from the Website http://www.speednavi.com You may also write an enquiry to info@speednavi.com Your enquiries may not be answered if not related to installation or upgrades

4 SUPPORT

M&SOFT Inc. and its SpeedNavi SQ™ will only be responsible for the Software support. Please make feel comfortable to contact for a support through our website (http://www.speednavi.com) and you may find support from your local dealer or your device supplier for any subject related to device.

5 EULA (End User License Agreement)

PLEASE READ CAREFULLY BEFORE USING THIS SOFTWARE PRODUCT: This End-User license Agreement ("EULA") is a contract between (a) you (either an individual or the entity you represent) and (b) M&SOFT Inc. ("M&SOFT") that governs your use of the SpeedNavi™ ("Software"). This EULA does not apply if there is a separate license agreement between you and M&SOFT or its suppliers for the Software, including a license agreement in online documentation. The term "Software" may include (i) associated media, (ii) a user guide and other printed materials, and (iii) "online" or electronic documentation (collectively "User Documentation").

RIGHTS IN THE SOFTWARE ARE OFFERED ONLY ON THE CONDITION THAT YOU AGREE TO ALL TERMS AND CONDITIONS OF THIS EULA. BY INSTALLING, COPYING, DOWNLOADING, UPGRADING OR OTHERWISE USING THE SOFTWARE, YOU AGREE TO BE BOUND BY THIS EULA. IF YOU DO NOT ACCEPT THIS EULA, DO NOT INSTALL, DOWNLOAD, UPGRADE OR OTHERWISE USE THE SOFTWARE. IF YOU PURCHASED THE SOFTWARE BUT DO NOT AGREE TO THIS EULA, PLEASE RETURN THE SOFTWARE TO YOUR PLACE OF PURCHASE WITHIN FOURTEEN DAYS FOR A REFUND OF THE PURCHASE PRICE;

1. USER's RIGHTS.

You will have the following rights provided you comply with all terms and conditions of this EULA:

M&SOFT grants you a license to Use one copy of the Software. "Use" means installing, copying, storing, loading, executing, displaying, or otherwise using the Software. You may not modify the Software or disable any licensing or control feature of the Software.

2. OWNERSHIP.

Each map data, software product including printed images, data and information as well as its intellectual property's right is owned by M&SOFT and its each supplier. The ownership and all rights are fully reserved and protected by corresponding national copyrights act, international copyrights agreement and other international law and agreement.

3. TRADEMARK.

SpeedNavi SQ™ is trade mark of M&SOFT Inc. and is protected its right by local and international law.

4. UPGRADES.

a. the software; M&SOFT may, for the purpose of improvement in performance and ease of usages, provide software upgrades with or without extra charge The upgrade is provided with or without prior notification to user. M&SOFT recommend you to regularly check http://www.speednavi.com for all upgrades and new information.

b. the map data; M&SOFT may, for the purpose of improvement in performance and accuracy of data usages, provide map data upgrades with or without extra charge. The Upgrade is provided with or without prior notification to user. M&SOFT may provide such upgrade when it is available. M&SOFT may or may not note such upgrade policy and its information at http://www.speednavi.com.

To Use SpeedNavi provided by M&SOFT as an upgrade, update, or supplement (collectively "Upgrade"), you must first be licensed for the original SpeedNavi identified by M&SOFT as eligible for the Upgrade. To the extent the Upgrade supersedes the original SpeedNavi, you may no longer use such SpeedNavi. This EULA applies to each Upgrade unless M&SOFT provides other terms with the Upgrade. In case of a conflict between this EULA and such other terms, the other terms will prevail.

4. TRANSFER.

a. Third Party Transfer. The initial end user of the Software may not make transfer of the Software product to another end user. Upon transfer of the Software, your license is automatically terminated. b. Restrictions. You may not rent, lease or lend the Software or Use the Software for commercial timesharing or bureau use. You may not sublicense, assign or otherwise transfer the Software except as expressly provided in this EULA.

5. PROPRIETARY RIGHTS.

All intellectual property rights in the Software and User Documentation are owned by M&SOFT or its suppliers and are protected by law, including applicable copyright, trade secret, patent, and trademark laws. You will not remove any product identification, copyright notice, or proprietary restriction from the Software.

6. LIMITATION ON REVERSE ENGINEERING.

You may not reverse engineer, decompile, or disassemble the Software, except and only to the extent that the right to do so is allowed under applicable law.

7. CONSENT TO USE OF DATA.

M&SOFT and its affiliates may collect and use technical information you provide in relation to (i) your Use of the Software or the M&SOFT Product, or (ii) the provision of support services related to the Software or the M&SOFT Product. All such information will be subject to M&SOFT's privacy policy. M&SOFT will not use such information in a form that personally identifies you except to the extent necessary to enhance your Use or provide support services.

8. LIMITATION OF LIABILITY.

Notwithstanding any damages that you might incur, the entire liability of M&SOFT and its suppliers under this EULA and your exclusive remedy under this EULA will be limited to the greater of the amount actually paid by you for the Product. IN NO EVENT WILL M&SOFT OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING DAMAGES FOR LOST PROFITS, LOST DATA, BUSINESS INTERRUPTION, PERSONAL INJURY, OR LOSS OF PRIVACY) RELATED IN ANY WAY TO THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF M&SOFT OR ANY SUPPLIER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND EVEN IF THE ABOVE REMEDY FAILS OF ITS ESSENTIAL PURPOSE.

9. CUSTOMER SUPPORT.

M&SOFT may provide necessary customer support using its web site (http://www.speednavi.com) or through it suppliers. However, M&SOFT is not liable for any after service or training of hardware device such as PC, GPS, in vehicle device, memory card, mount or else other than the Software itself provided with the Software. M&SOFT recommend you to contact local dealer for such customer support.

10. COMPLIANCE WITH EXPORT LAWS.

You will comply with all laws, rules, and regulations (i) applicable to the export or import of the Software, or (ii) restricting the Use of the Software, including any restrictions on nuclear, chemical, or biological weapons proliferation.

11. RESERVATION OF RIGHTS.

M&SOFT and its suppliers reserve all rights not expressly granted to you in this EULA.
